

Health and the Reagan-Udall Foundation for the Food and Drug Administration Act, led by my Energy and Commerce Committee colleagues, Representative HUDSON and Representative ESHOO.

Empowering biomedical innovation in the United States is critical to protecting our global competitiveness. We saw how important it was to invest in creating new treatments during the COVID-19 pandemic, and we need to carry that momentum into the future.

H.R. 3743 authorizes increased transfer authorities from the FDA and the NIH to both the Reagan-Udall Foundation and the Foundation for the NIH, respectively.

Allowing FDA and NIH to provide increased funding to these public-private partnerships will give the Reagan-Udall Foundation and the Foundation for the NIH more flexibility to meet the growing research demands and to ultimately accelerate future medical innovations.

I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I have no Members who wish to speak at this time, and I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield as much time as he may consume to the gentleman from North Carolina (Mr. HUDSON).

Mr. HUDSON. Mr. Speaker, I rise in support of H.R. 3743, Supporting the Foundation for the NIH and the Reagan-Udall Foundation for the FDA Act.

I introduced this bipartisan bill along with my friend, Chairwoman ANNA ESHOO, to build on our success of public-private partnerships that have produced lifesaving medical breakthroughs.

The Foundation for the NIH and the Reagan-Udall Foundation were created by Congress to support the NIH and the FDA by forging partnerships between the Federal Government and private industry experts.

Providing additional support to these organizations would further accelerate research into novel vaccines, therapeutics, diagnostics, and other innovations, helping us prepare for future emergencies.

Due to partnerships such as these, we have already seen the success of the ACTIV program in speeding developments of COVID-19 vaccines and treatments.

It should be noted that we would not be where we are today without the innovation seen in Operation Warp Speed. This public-private partnership has not received the credit it deserves for creating, developing, and manufacturing life-saving vaccines in record time.

Through my legislation, we can build on these successes and enhance partnerships across the healthcare industry.

I thank Chairman PALLONE and Ranking Member GUTHRIE for their

support, and I urge my colleagues to support this legislation.

Mr. GUTHRIE. Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I urge support for this bill, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and pass the bill, H.R. 3743.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mrs. BOEBERT. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

COLLECTING AND ANALYZING RESOURCES INTEGRAL AND NECESSARY FOR GUIDANCE FOR SOCIAL DETERMINANTS ACT OF 2021

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3894) to require the Secretary of Health and Human Services to issue and disseminate guidance to States to clarify strategies to address social determinants of health under the Medicaid program and the Children's Health Insurance Program, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 3894

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Collecting and Analyzing Resources Integral and Necessary for Guidance for Social Determinants Act of 2021" or the "CARING for Social Determinants Act of 2021".

SEC. 2. REQUIREMENT TO ISSUE GUIDANCE TO CLARIFY STRATEGIES TO ADDRESS SOCIAL DETERMINANTS OF HEALTH IN THE MEDICAID PROGRAM AND THE CHILDREN'S HEALTH INSURANCE PROGRAM.

Not later than 3 years after the date of the enactment of this Act, and not less frequently than once every 3 years thereafter, the Secretary of Health and Human Services shall update the State Health Office letter 21-001, issued on January 7, 2021, to clarify strategies to address social determinants of health under the Medicaid program and the Children's Health Insurance Program. Such update shall include the following:

(1) Guidance to State Medicaid agencies regarding the strategies that States can implement under authorities in existence as of such update under title XIX of the Social Security Act, title XXI of such Act, or section 1115 of such Act to address social determinants of health in the provision of health care, including strategies specifically targeting children receiving medical assistance under a State plan under title XIX of such Act (or a waiver of such plan) or child health assistance under a State child health plan under title XXI of such Act.

(2) Guidance on how States can encourage and incentivize managed care entities to address

social determinants of health through contracts with such entities.

(3) Updated examples from States with respect to how States are addressing social determinants of health in the provision of health care under the Medicaid program under title XIX of the Social Security Act and the Children's Health Insurance Program under title XXI of such Act, including through payment models.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Kentucky (Mr. GUTHRIE) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

GENERAL LEAVE

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 3894.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, environmental factors can have a tremendous effect on an individual's health. Where a person lives, their level of education, their food security, and many other aspects of a person's life, can affect their health and well-being. These are often called the social determinants of health.

Healthcare providers and insurance plans are looking more and more at addressing some of these social determinants in order to improve individual health. State Medicaid programs have been especially engaged on this front.

Unfortunately, it can sometimes be difficult for States and insurance plans to understand the various authorities available in Medicaid to address the social determinants of health. Likewise, it can also be difficult to see how other States are using those authorities in creative new ways.

H.R. 3894, the Collecting and Analyzing Resources Integral and Necessary for Guidance for Social Determinants Act, will give States a valuable new resource to ensure that they are able to use Medicaid to the fullest extent possible.

H.R. 3894 will ensure that the Centers for Medicare and Medicaid Services regularly updates its guidance to States on how they can use Medicaid to address the social determinants of health. It will also require CMS to provide examples of how other States are using Medicaid to address the social and environmental factors that can affect people's health.

I want to thank Representatives BLUNT ROCHESTER and BURGESS for their work on this important bill, and I urge my colleagues to support this bipartisan legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 3894, the CARING for Social Determinants Act of 2021, a bill led by

Representatives BLUNT ROCHESTER and BILIRAKIS.

Research shows that socioeconomic conditions, such as job loss, lack of transportation, inadequate housing, among others, can contribute to poor health outcomes.

The Trump administration took a key step at the beginning of this year by releasing guidance to States on how to better utilize Medicaid to support social determinants of health. It provided real-world examples that States are taking to improve outcomes for beneficiaries.

For example, Medicaid managed care plans in my home State of Kentucky are leading the way by using care coordinators to connect vulnerable beneficiaries to social support services like food pantries and daycare services.

The CARING for Social Determinants Act would require HHS to update this guidance every 3 years in order to drive future innovation in State Medicaid programs.

I am proud of the important steps this bill takes to improve health outcomes for some of our most vulnerable populations.

Mr. Speaker, I urge my colleagues to support this bill, and I reserve the balance of my time.

Mr. PALLONE. Mr. Speaker, I have no Members who wish to speak, and I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield as much time as he may consume to the gentleman from Florida (Mr. BILIRAKIS).

Mr. BILIRAKIS. Mr. Speaker, I thank the ranking member and the chairman of the committee and, of course, the ranking member of the full committee, CATHY MCMORRIS RODGERS, for their work on this bill.

I am honored to be here today to speak in support of H.R. 3894 and would like to thank my colleague and friend, Representative BLUNT ROCHESTER, for sponsoring this important piece of legislation. This is a really good bill.

I also want to thank my esteemed colleagues on the Energy and Commerce Committee for their continued bipartisan efforts to benefit American patients under innovative delivery models through increased data.

The CARING for Social Determinants Act, which I proudly co-lead, would provide routine guidance and strategies to States to address the social determinants of health under the Medicaid and the Children's Health Insurance Program, or CHIP program.

This bill also solidifies States' authority to continue innovative waiver payment models, which consequently improves Medicaid beneficiaries' health outcomes.

This is really a great bill, Mr. Speaker, and I want to thank the chairman. We truly do work in a bipartisan fashion in this committee, in most cases.

Mr. Speaker, I urge my colleagues to vote in support of this bill.

Mr. GUTHRIE. Mr. Speaker, I yield back the balance of my time.

Mr. PALLONE. Mr. Speaker, I would urge my colleagues to support this legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from New Jersey (Mr. PALLONE) that the House suspend the rules and pass the bill, H.R. 3894, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the yeas have it.

Mrs. BOEBERT. Mr. Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.

SOCIAL DETERMINANTS OF HEALTH DATA ANALYSIS ACT OF 2021

Mr. PALLONE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 4026) to require the Comptroller General of the United States to submit to Congress a report on actions taken by the Secretary of Health and Human Services to address social determinants of health.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 4026

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Social Determinants of Health Data Analysis Act of 2021".

SEC. 2. REPORT ON ACTIONS TAKEN BY THE SECRETARY OF HEALTH AND HUMAN SERVICES TO ADDRESS SOCIAL DETERMINANTS OF HEALTH.

Not later than 2 years after the date of the enactment of this Act, the Comptroller General of the United States shall submit to Congress a report on actions taken by the Secretary of Health and Human Services (in this section referred to as the "Secretary") to address social determinants of health. Such report shall include the following:

(1) An analysis of how any data collection undertaken by the Secretary in furtherance of such actions complies with Federal and State privacy laws and regulations.

(2) A description of any coordination undertaken by the Secretary with other relevant Federal agencies and State and local authorities as part of such actions.

(3) An identification of any potential for duplication of such actions or other barriers to such actions.

(4) Recommendations on how to foster private-public partnerships, as well as how best to leverage private sector efforts, to address social determinants of health.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from New Jersey (Mr. PALLONE) and the gentleman from Kentucky (Mr. GUTHRIE) each will control 20 minutes.

The Chair recognizes the gentleman from New Jersey.

GENERAL LEAVE

Mr. PALLONE. Mr. Speaker, I ask unanimous consent that all Members

may have 5 legislative days in which to revise and extend their remarks and include extraneous material on H.R. 4026.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. PALLONE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, social determinants, or social drivers, of health affect every single person in our communities. They are aspects of our daily living, such as the conditions in the places where we live, learn, work, and play, which can positively or negatively affect a wide range of health risks and outcomes.

Through our healthcare system, social determinants of health are being examined as part of a holistic view of a person's healthcare.

A noted example was highlighted by The New England Journal of Medicine linking the loop that determinants can play throughout a person's life. Poor health or lack of education can impact employment opportunities which, in turn, constrains income. Low incomes reduce access to healthcare and nutritious food and overall increase hardship. Hardship causes stress which, in turn, promotes unhealthy coping mechanisms, such as substance abuse and poor nutrition choices. And poor nutrition increases risk factors for heart disease, obesity, and diabetes.

When not given an equal opportunity to thrive, these social factors can compound and snowball to negatively impact a person and their community. Fortunately, States are becoming innovative in addressing social needs in the communities to improve health and decrease costs.

□ 1645

Today, we are taking another step in the right direction by considering H.R. 4026, the Social Determinants of Health Data Analysis Act of 2021. This bipartisan legislation requires a report on programs undertaken by the Department of Health and Human Services to address social determinants of health. The report would include recommendations to foster private-public partnerships and include an analysis of privacy measures as part of social determinants of health data collection.

The report and research, Mr. Speaker, will help inform our future work on social determinants, and, therefore, it is important that we pass this bill.

I urge my colleagues to support the legislation, and I reserve the balance of my time.

Mr. GUTHRIE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 4026, the Social Determinants of Health Data Analysis Act of 2021, led by the gentleman from Texas (Mr. BURGE) and the gentlewoman from Delaware (Ms. BLUNT ROCHESTER), my Energy and Commerce Committee colleagues.

Social determinants of health impact the quality of an individual's life and
